### County and District Councillor Reports

County Cllr Mrs Davis read the information she has received from DCC Highways regarding the planning application no 59023 (outline application for 15 homes at land adjacent to the Ring o' Bells, Prieford). DCC Highways comments are as follows:

*"1. The roads providing access to the site are, by reason of their inadequate width, horizontal alignment and lack of footway provision/grass verges, unsuitable to accommodate the increase in traffic likely to be generated.*

*2. The proposal will result in the loss of vehicle parking facilities and will, therefore, encourage parking on the highway, with consequent risk of additional danger to all users of the road and interference with the free flow of traffic.*

*3. The proposed development will be located where it is remote from adequate services, employment, education, public transport, etc. and will, therefore, increase the need for journeys to be made by private vehicles which is non-sustainable and in conflict with the advice given within the National Planning Policy Framework".*

Cllr Mrs Davis said that Devon County Council, as a formal consultee, can do no more than formally object, which they have done.

The applicant's representative said, at the last meeting, "Devon County Highways has already agreed the application". Cllr Mrs Davis confirmed that DCC Highways had not been consulted at the time of the last Parish Council Meeting.

Cllr Tucker was attending the Wind Farm Meeting but had reported that he has received several letters from the public on this application

### Planning Applications

*59033 – Honeywell Farm. Erection of one wind turbine with tower hub height of 36.6m and blade tip height of 46.3m with associated works including cable run.*

Cllr Latham declared a pecuniary interest as a relative and left the meeting at 19.50. He did not speak or vote on the application and returned after the vote had been taken. Standing Orders were suspended to allow the applicant and three members of the public to speak.
